Title: So-So Suicide

download from: <http://www.lyricsdisc.com>

I feel the blisters
Below the words
A universe waiting to explode

And I felt the words crawl out of my skull
And now you know
Exactly what you should

Don't bother pretending I seem fine
I like that I'm a mess
I can't stand it much longer in my head
I think it's time for bullets

Became so-so suicidal
And now I know the ugly from the good

Don't bother pretending I seem fine
I like that I'm a mess
I can't stand it much longer in my head
I think it's time for bullets

Don't bother pretending I seem fine
I like that I'm a mess
I can't stand it much longer in my head
I think it's time for bullets
