Title: Spanish woman

download from: <http://www.lyricsdisc.com>

My spanish woman drinks all night
She doesn't know that she is mine
She fills her dreams with other boys' eyes
And I.

I stay here all alone
Tryin' to find what I've done wrong
She's so rough and she's so hard, man
But I love her just the same.

My redemption will be
The day that I'll forget those lips
Cause the past it hurts so much, boy
I can hardly believe.

I still can see her in the bar
With angels drinkin' by her side
Barcelona is not that far, boy
Gonna a-meet her tonight.

Barcelona,
Here we go.
