Title: Special Delivery

download from: <http://www.lyricsdisc.com>

Hey now do you see me down the way?
I've been watching you every day
In my car on your street is where I stay
I know you better that way
One day I'll be meeting you for real
You'll feel bad like I feel

It'll blow you away
You're gonna fall for me, You're gonna fall for me
And the voices told me to blow you away
You're gonna fall for me, You're gonna fall for me

Hey now when I'm knocking on your door
This special delivery is yours
My infatuation, it's true
Hello, got something for you

It'll blow you away
You're gonna fall for me, You're gonna fall for me
And the voices told me to blow you away
You're gonna fall for me, You're gonna fall for me
If you hadn't sold me I'd still be away
You're right in front of me, you're right in front of me
Then, I'll be on my way
Breathing you okay

Oogaa ooga chaka
Can't break from my sins
Cannot pray.

But you can't kill a man when he's got no hope
God, help me

It'll blow you away
You're gonna fall for me, You're gonna fall for me
And the voices told me to blow you away
You're gonna fall for me, You're gonna fall for me
If you hadn't sold me I'd still be away
You're right in front of me, you're right in front of me
Then, I'll be on my way
When you breathe onto me
