

I was getting dressed late one night  
along came a spider and I got a fright  
oh I could not squash it flat  
No matter how I tried,  
And when it looked me in the eye  
I ran away to hide...

I put on me Doctor Martin shoes  
A battle with the spider that I wasn't gonna lose  
A kick from the left a kick from the right  
I was on the floor but I was alright  
It was gonna be a long long night

[Chorus:]  
Spiders in the dressing room  
Spiders everywhere  
Spider in the dressing room beware  
[repeat twice]

Things were getting hot and I had to take a chance  
The spider got impatient  
Started crawling up me pants  
I shook it off me legthump it hit the ground  
Everything was silent so I didn't make a sound  
I crossed the room as happy as can be  
I had killed the spider now it couldn't bother me  
But with me arm on the light  
He was there ready for a fight  
It was gonna be a long long night.

[Chorus]

It was getting late and the spider wasn't dead  
An audience had gathered round  
And I was going red  
I put a jam jar on the floor  
the spider crawled inside it  
I screwed the lid back on the top  
And threw the jar outside  
At a party late that night  
Everything was bright and gay  
We played all our pop records and danced the night away,  
Early in the morning came a knocking at the door  
I opened it slowly guess what I saw  
It was gonna be a long long night...

[Chorus]
