Correct Song name: Steamroller

My baby got ran over  
by a steamroller  
My baby got ran over  
by a steamroller

She thought I had left her  
But I could never do that  
Now it's too late to tell her

My baby got ran over  
by a steamroller  
My baby got ran over  
by a steamroller

She was my only baby  
She used to drive me crazy  
Now it's too late to save her

My baby got ran over  
by a steamroller  
My baby got ran over  
by a steamroller

I didn't get the number  
As she was going under  
It was a case of hit and run.

My baby got ran over  
by a steamroller  
My baby got ran over  
by a steamroller

steamroller(5x)
