

Well I've got all these thoughts
turning in my head,
I have to write it all down,
trying to keep my head above the water,
stuck in a one horse town.
I know I've got something but I can't put my finger on it.
But everytime I think about it,
it disappears.
Stop the world, cause this is where I get off.
Well you can all carry on,
but just stop the world.
Well I can feel myself,
tumbling and fall,
but I can get back up on my feet,
cause I got something I'd like to show you all.
I know I've got something but I can't put my finger on it.
But everytime I think about it,
it disappears.
Stop the world,
cause this is where I get off.
Well you can all carry on, someone please stop the world.
So c'mon stop the world, cause this is where I get off,
well you can all carry on, but just stop the world.
Stop.
Stop.
