

Its over over now there's no use talking
Its over won't you just let go
Its over tell your story walking
Its over but you just forgot to say

What (what) you (you) want (want)
Is all you've got
What (what) you (you) need (need) is everything

And I don't mind take your time
But we'll leave strangers here tonight
So here's your life and I'll take mine and
We'll leave strangers here tonight

Its over over and there's no use running
Its over won't you just move on
Its over tell your story walking
Its over won't you just get lost

What (what) you (you) want (want)
Is all you've got
What (what) you (you) need (need) is everything

And I don't mind take your time
But we'll leave strangers here tonight
So here's your life and I'll take mine and
We'll leave strangers (strangers) tonight

(Let's go!)

Its not that easy just to say
'You're wrong, I'm right'
'Cos I'm not that kind of guy

Tonight, je suis c'est la vie
We'll leave strangers here tonight
J'dore, ne pas
We'll leave strangers here tonight

When everything is said and done (bah-dup)
There's no more coming back for fun (bah-dup)
This is where we make it right (bah-dup)
And we leave strangers here tonight (bah-dup)
