

You see me walk  
You see me fall  
You touch the tears upon my face

I think there's going to be a backlash against technology.  
You know, I don't know what's gonna cause it.  
I hope it won't be any environmental disaster shit, you know, for sure for my kids that wanna live a better life.  
Not so much materially but I want a piecefull life.  
You know sometimes it's good just to go in the woods and just go hiking and get back in touch with yourself and nature.  
You know, then you come back here and you realize that this is like,  
Ludacris all this emphasis on technology and 50 different internet devices and shit and internet devices you can put in your pocket.  
Sometimes I feel threatened by it but you know, that's the future and I am a man of the past.  
You know, I'm a, I'm a low-tech man in a high-tech world. I mean it's fact man.  
I'm a low-tech man in a high-tech world there ain't shit I can do about it because,  
You know, the world's changing and I'm not and you know, maybe I don't wanna change.  
Maybe the people I associassate with are like me.  
You know, what's going on we can't use our brains  
It's being a person  
You know it's being a fucking person man
