Home, is away from home, smile cause no snow, here to break the fall  
leave everything behind, reset my blurry mind, start to run again  
yes, everything is fine, you ask I lie, bad is good to hide  
love, what a waste of time, your heartbeat mine, I learn, I grow harder  
I burn, you'll see  
yes, everything's a dream, I'm down on my knees, you're not listening  
smile as you twist the knife, you take what's mine, I learn, I grow harder  
I burn, you feel  
yes, everything is fine, no pain allowed, modern life (?),  
scream if you don't know the words, I don't feel no word  
I don't feel anything  
what have you done, everything is gone, my lips feel numb  
what have you done, my hands are cold, don't ask just go, go, go  
what have you done, what have you done, what have you done  
what have you done, what have you done
