

If i give you sugar, will you give me
Something elusive and temporary
If i give you sugar, will you give me
Something elusive and temporary
We get a signal to leave you alone
Alone's where we leave you
Alone's where we find you
If i give you sugar, will you give me
Something elusive and temporary

If i give you sugar, will you give me
Something elusive and temporary
If i give you sugar, will you give me
Something elusive and temporary
We get a signal to leave you alone
Alone's where we leave you
Alone's where we find you
If i give you sugar, will you give me
Something elusive and temporary

If i give you sugar, will you give me
Something elusive and temporary
If i give you sugar, will you give me
Something elusive and temporary
We get a signal to leave you alone
Alone's where we leave you
Alone's where we find you
If i give you sugar, will you give me
Something elusive and temporary
