---

My friend's got a bruise on his leg, a bruise on his leg  
Everytime you speak  
My friend's got a bruise on his leg, where I press my knee  
Everytime you speak  
Actually, bottom line, you tell the truth sometimes  
Sometimes you tell the truth like you're pulling taffy  
My friend's got a bruise on his arm, a bruise on his arm  
Everytime you speak  
My friend's got a bruise on his arm, where I shove my elbow  
Everytime you speak  
Actually, bottom line, you tell the truth sometimes  
And sometimes you tell the truth like you're pulling taffy

My friend's got a bruise on his ribs where I poke my finger  
Everytime you speak  
My friend's got a bruise on his ribs, his rib cage is now numb  
Everytime you speak  
Actually, bottom line, you tell the truth sometimes  
And sometimes you tell the truth like you're pulling taffy
