(Stephony Smith/Bob DePiero)

Forty miles outside of Houston's city limits,  
Eldorado with a full tank of gas in it,  
It'll take us where it thinks we need to go,  
All we got to do is keep it in the middle of the road.

Take me up to Wichita,  
Hold me in Niagara Falls,  
Rock me in Memphis,  
Kiss me down in New Orleans,  
Marry me in the Keys,  
I don't care where we go,  
As long as you take me.

And baby, make a left on exit 98,  
My sister told me that the etouffee is great,  
Yeah, we could split a cold one to wash it down,  
And watch the sunset on the face of a sleepy little town.

Take me up to Wichita,  
Hold me in Niagara Falls,  
Rock me in Memphis,  
Kiss me down in New Orleans,  
Marry me in the Keys,  
I don't care where we go,  
As long as you take me.

Ninety miles an hour,  
One kiss every minute,  
It's my favorite car,  
As long as you're in it.

Take me up to Wichita,  
Hold me in Niagara Falls,  
Rock me in Memphis,  
Kiss me down in New Orleans,  
Marry me in the Keys,  
I don't care where we go,  
As long as you take me.  
Take me.
