Title: Take Me Away

---

(chorus)

Take me away with you  
Where we can do  
All the things that we have ever wanted to  
Take me away somewhere  
Where we can share  
This love

I close my eyes, now it's clear  
Feels like I've been sleeping for a million years  
'Till you came, I couldn't see  
Now your kiss is breathing life back into me

(bridge)

Why worry about the world outside  
We've got everything we need

(chorus)

How can I love you more  
Heaven knows that you're the one I've waited for  
Now you're here, no more tears  
Hold my hand and baby we can disappear

(bridge)

(chorus)

(bridge)
