Title: Talking To Remind Me

download from: <http://www.lyricsdisc.com>

I really miss being around people that I love
I can out myself to sleep never have to fight
I can turn around the key
Never have to trust anybody that I meet
Liking the abuse

Oh really

I think I like and I want it to last
I never know what's going on around me
My eyes are focussed 'til the end of time
And I'm talking to remind me

I really miss being around people that I hate
I can take away the pain never have to lie
Break away from any chain
Never have to talk to a stranger in the street
Liking the abuse
