[Bonus track]

Picked you up, in the dead of night, for a long time been in my sight! My hands are sweaty, and I'm horny, don't speak a word, you'll just bore me! Trapped inside, can't get out, rip your face, you can't shout! Tied you down, had my way I just wanted, to get laid! Fucked you hard and now I'm done, didn't take long for me to cum! Roll you over, sinister grin, tearing apart, I now begin! Killed you fast, the meat is fresh, full course meal for my lunch! Slicing into you looked good, cook the eyes, think I could?! Still moving, lifeless creature spawn, mistreat the tampered flesh! Sodomize eagerly, slapping my cock on, your bare skull! Thick jism spashes you, scent of vesceration, masturbation, ejaculation, boy this is fun! I put you in the tup, bathe with your stub! Still moving, lifeless creature spawn, mistreat the tampered flesh!
