

Tear out your heart  
And keep it company  
Set it here by me and  
Sing it a sad song  
Tear out your heart and  
Cry the tears you need  
Give it a brand new chance  
Reason for romance

Tear out your heart  
See if anybody cares  
People stop and stare  
Desolation everywhere  
Tear out your heart  
It makes no difference now  
Good times seldom last  
Forget the past

There's a candle burning on a hillside  
There's a silent ringing in the air  
There's a feeling something's gonna happen  
Out there

Tear out your heart  
And set your spirit free  
Let it wander on in ecstasy  
Tear out your heart  
No more games to play  
No more time to say  
Let's fly away

Tear out your heart  
Oh tear out your heart  
Yeah tear out your heart  
Tear out your heart
