Title: Temptation Of Blood

---

The dark force inside my heart  
Awaits the day when screams are heard  
The vampire is once again reborn  
When the moon, strikes full

Screams from the cold winter night  
Screams from the vampire's bite  
Immortalized souls have gathered once again  
The christian woman is now dead

The dark age has now arrived  
I feel the temptation of blood  
My heart is full of hate  
When my teeth reach her throat
