

She's caught me snortin' cocaine with her little sister
And the bitch just kicked me out
she said take that crap my house Mister
And the bitch just kicked me
I said I'll go, but I don't know what you're talking about
Is that all it takes for a man to get kicked out
Kick me out
You've caught me rolling around with her mamma too
And the bitch just kicked me out
Baby, she does things that you don't do-
And the bitch just kicked me out
Can't you see, how much I love your family
Now you want to go take it away from me
Oh baby
Don't kick me out
Oh baby
Kick this
You've caught me rolling around with your mamma too
And the bitch just kicked me out
We did those things so I could teach them to you
And the bitch just kicked me out
I said can't you see how much I love your family
Now you wanna go and take it a way from me
Gonna kick me out
Come on baby
Come on baby
Well, I'm gone
