

0:56--Peaceful
0:57--Discard your innocent dreams
1:03--Lustful
1:05--the kind that leaves you empty
1:10--Leastful
1:11--The seasons pass you by
1:16--And to think
1:05--That maybe you can fly
1:24--Ceilings fall
1:25--Will lead to much you regret
1:31--Clouds form
1:33--With each moment of despair
1:38--Buildings fall
1:40--The pavement is their bed
1:45--But what's the last thing
1:47--That goes through your head
1:52--You take the elevator to the top
1:57--The next thing you know
1:59--There you are standing on the edge
2:06--And all the flashing lights and through the cries
2:11--They're all for you, now
2:13--Just close your eyes and take that final step
2:20--Rains fall
2:22--They dampen your will to live
2:27--Gods fall
2:29--With each pleasure that you give
2:34--You'll fall
2:35--And take the whole world with you
2:41--but will you even bother to look down
2:48--You take the elevator to the top
2:53--The next thing you know
2:55--There you are standing on the edge
3:02--no second steps it turns you inside out
3:08--So we can have peace
3:09--Before you find out what's inside your head
3:33--What's inside your head!
3:54--(Guitar Solo)
4:19--You take the elevator to the top
4:24--The next thing you know
4:26--There you are standing on the edge
4:33--no second steps it turns you inside out
4:38--So we can have peace
4:40--Before you find our worlds inside your head
4:47--And all the flashing lights and through the cries
4:52--They're all for you, now
4:54--Just close your eyes and take that final step.
5:01--(half-spoken)Just close your eyes and take that final step.
