

Artist: verbena

Title: The desert

download from: <http://www.lyricsdisc.com>

I'm in love with the size of the desert
Never seen but i'd love to kiss a cactus
Got my hands on a piece of the good earth
Both my hands up inside of a new world

It's exactly by the pound
I do i do
I would never ?
This excitements got me down
I do i do

Desert grows to the size of a fever
Desert smiles at the feet of a new boy
Desert gets everything it ever wanted
I'm in hate with the size of a desert

This excitements got me down
I do i do
I would never do it ?
This excitements got me down
I do i do

I'm in love with the size of a desert
Never seen it but id love to kiss a catcus
Got my hands on a piece of the good earth
Both my hands up inside of a new world

This excitements got me down
I do i do
I would never do it ?
Its exactly by the pound
I do i do
I would never leave now ?
This excitements got me down
I do i do
I would never leave now ?
I do i do
Its exactly by the pound
I do i do
