

It started in a movie
Where he, he sailed around the world
And the dream became and she called it love
She dreamed that she'd be rescued
Yeah she, she wanted to be saved
But she settled there for what we call the game

It's a game
It's a game
It's a game we play
In a world
In a world
In a world we heard about today

It's a game
It's a game
It's a game we love
Cause we heard it was all so fine today, today

It started in a novel
But then they, they changed it on the screen
And a dream became a dream in vain
And shot by desolution became true and by her pain
And she settled there than trust to like the game

It's a game
It's a game
It's a game we play
In a world
In a world
In a world we heard about today

It's a game
It's a game
It's a game we love
Cause we heard it was all so fine today, today

Darling if you could wait your love would come
Love is so much more than a game

It's a game
