

Artist: templars

Title: The glory it once was

download from: <http://www.lyricsdisc.com>

Fuck the third world let them starve
Fuck foreign conflicts let them fight their own wars
Let's clean the our streets of poverty
Let's feed the mouths of our own hungry

CHORUS

Let's take a look at our nation as it is today - today

Think about your country
now take a look at you
Think about your country
let's bring back the glory it once once

Let's build up our own industries
Let's put our nation back on its feet
Fuck trade wars we'll close our doors
Fuck immigration we've got our own population

CHORUS

Repeat first verse

CHORUS
