---

Come with me let me walk you  
thru the world that i currently stay in

You can take a look around and tell me if I'm mistaken  
You can meet and talk to/ everybody that I live with  
Maybe you can tell me why everybody's so distant  
Is it me or maybe/when I look around daily  
I don't even know the people I can put my trust in lately  
People that I used to hang with/now they're acting so diferent  
I'm still the same person why doesn't anybory listen  
Can somebody please/just explain to me  
What happened to the why that we always said we'd be  
Right now I don't know why i pushed through the pain that i got through  
And I'm losing hope

Kenna:

Deafening voices/that frequency inside my head  
That says/I'm going at it the hard way  
I focus/get everything inside out of my brain  
That claims/I'm going at it the hard way

Mike:

Come with me/let me walk you thru the world that I currently live in  
Not a things is forgotten/not a thingis forgiven  
Nobody can hold their own underneath the weight but  
Nobody can take the blame for their own mistakes so  
What do you do when somebody letsyou down  
And you wanna say something but you can't cause they're not around  
Inside you think they know the extentof the pain  
But they won't even admit that they were the one to blame  
Can somebody please/just explain to me  
What happened to the why that we always said we'd be  
'Cause right now I don't know why I pushed through the pain that I got through  
And I'm losing hope

Gimme one reason not to
