Title: The other side

download from: <http://www.lyricsdisc.com>

Turn down the day
Turn down the light
Quiet in the dark
Another sleepless night
Softly on the breeze

A song in the night
Feel the spirit rise
With the morning
Press on oh tired
And weary one
You've done your best
To stand when the day
Seems so long
Press in
Let worship be your guide

To lead you through the night
Your miracle will come
On the other side of praise
Raise up these arms

Hold the banner high
Surrender is the only
Way to life
