

Motions that make gods cringe running in circles  
as fast as we can  
take what you can 'cause now it's all over  
run hot  
and cold to break the skin  
break the skin

and we won't take no for  
an answer  
for just when the door slams  
the pill drops  
oh my sweet unknowing partner the perfect design

the pill drops  
so start the silent dance slumping silhouette  
unforgiving hands harboring regret  
play it just once more for old times

yeah...  
you know  
you know  
you know you're all I ever wanted

yeah...  
you know  
you know  
you know you're all I ever want

how we laughed when we first saw each other...  
how you screamed when I saw your eyes melting...  
this is the end of every rainbow  
and now your face shatters  
every waking second

and now your face shatters  
every waking second

and now your face shatters  
every waking second
