---

For god and country you say I should die - Bullshit!  
For greed and profit is the reason why - Fuck you!  
Your beliefs are crushing human rights - Bullshit!  
I decide for myself what is right - Fuck you!  
You say the problem's in my head,  
You say the problem's in my head,  
You say the problem's in my head,  
You say the problem's in my head - Fuck you!  
The laws you make, they don't apply to you - Bullshit!  
Why is liberty for the chosen few? - Fuck you!  
You say the counterculture is to blame - Bullshit!  
It's your Christian-right wing platform that's insane - Fuck you!  
You say the problem's in my head,  
You say the problem's in my head,  
You say the problem's in my head,  
You say the problem's in my head - Fuck you!  
If you change someone against their will,  
they'll hold the same opinion still.
