Title: The Sun Was In My Eyes: Part Doom

download from: <http://www.lyricsdisc.com>

The sun was in my eyes
It came through the trees
Consumed all of my mind
It was all I could see

The sun was in my eyes
Something became of my life
I left all else behind
And stared into the light

The sun was in my eyes
I could not see
Please find it in your heart
To forgive me

Pursuing the sun because you can
But still tell the night you
