Title: There's always a reason

download from: <http://www.lyricsdisc.com>

There's always a reason
Some answers not needed
Give me belonging
Replace it with longing

Always a reason
With nothing but losing
These times they are moving
These walls we are building

There's always a reason
It's wrapped up in tinsel
Tearing down children
A song for all seasons

There's always a reason
Always a reason
There's always a reason

There's always a reason
Or are we all failures
Repeating repeating
Defeating defeating

Always a reason
Careeing careering
But always retreating
And never believeing

There's always a reason
It's wrapped up in tinsel
Tearing own children
A song for all seasons

There's always a reason
Always a reason
Theres always a reason
