Title: This isn't the first song

download from: <http://www.lyricsdisc.com>

They always say there 's a change insight
But the kids on the street still turn to crime
A nation at war , they round us up and send us to fight
And if we refuse we 're locked away to do time
Obviously there 's something wrong
This isn 't the first song to be sung about their lies
Something 's gotta be done before we run out of time
All their corruption and all of their lies
Who are the real criminals , who commits the crimes
Who are the ones above the law , who will never serve their time
They say their voted into power but it 's not true
This is no democracy , don 't let yourself be fooled
And when our time comes , when the clock strikes the hour
We will stand united as we fight to reclaim our power
Obviously there 's something wrong
This isn 't the first song to be sung about their lies
