

In the head obviously in a drawer
Where I keep my things safe
And the gale that I
I say you had declared
You could kill for me this time
This time today

To get involved with you is not worthwhile
and no reason to overstrain myself
You know I'm small when you have me
Small when you get the upper hand
Oh and everytime you squeeze my hand

When you're mistaken
Stay where you are
And don't stand in my way

[Chorus:]
This time today
This time today
This time today
I say this time,
This time today

Didn't know until know
How confused we all are
Really, really is frightening
And how vulnerable I can be
And it didn't surprise me

When you're mistaken
Stay where you are
And don't stand in my way

[Chorus x2]
