

Do what you want to do,  
Say what you want to say to me  
I know what you'd like  
To think of me  
This is not real it can't be real  
This thing I feel  
You're threatening  
You're threatening  
How can I not hate you, hate you  
How can I not be free, be free  
I know deep down inside  
How God reveals himself  
I know deep down inside  
To know him I must kill pride  
Why do you care so much for me,  
What's in this for you  
Why can't selfishness rule you  
Like everybody else  
Let go pride, let go pride,  
Cannot deny, cannot deny  
This thing I feel, I feel inside  
How God reveals himself  
I know deep down inside  
To know him I must kill pride
