Title: Time bomb

download from: <http://www.lyricsdisc.com>

It's raining, it's cold out,
just new in rainy town
So how long these gray clouds
And this rain coming down?

Time Bomb
I can't avoid it
But I will find a way
You bet boys
My ship comes in today

Turned out, Ohio
Not one job to be found
So it's westward
To fortune, easy green all around

Hard patience, but swallow
'Cause help is on the way
You bet boys
My ship comes in today

So what?
Long shadows
A car can be a home
I'm still dreaming
It's just hard luck
And now too long alone

Time bomb
I don't like it
But help is on the way
You bet boys
My ship comes in today
Hey
Hey
Hey
