

chorus

Oh how time flies, since we said hi

But now it's time we said goodbye

Oh how time flies, since we said hi

But now it's time we said goodbye

Here we are

Look how long it's been

We come far and I remember when

We were young

Having fun

Dancing 'til the dawn

Now we're grown

On our own

Everybody's moving

Everything is changing

Nothing stays the same

Even though we're leaving

We'll be coming back again

chorus

The loves, the laughs, the good ones and the bad

My precious memories of the times we had

Chances are

We'll go far

I know our day will come

Never lie

Don't deny

Just remember where your from

Everything is changing

Nothing stays the same

Even though we're leaving

We'll be coming back again

chorus

Time it flies on by

You know it, baby

Time it flies on by

You're on my mind, you're in my heart

You're on my mind, on my mind

chorus
