Title: Today my world slipped away

download from: <http://www.lyricsdisc.com>

---

We made it final today

I gave you all I had You made your get away All the love we once made Turned into memories today I left the court room and Went straight to the church I hit my knees and told G  
Cause today my world slipped away We buried the plains that we made And tonight I'm alone and afraid Cause today my world slipped away My friends say that I'll make it alright  
Yes today my world slipped away
