Title: Too long gone

download from: <http://www.lyricsdisc.com>

As i turned in the driveway you turned on the light my hands were shaking when i turned the key cause out there on the highway i dreamed of you each night and
I knew youd be waiting up for me
Ive been too long gone too far from home ive seen too much rain felt too much pain ive been gone too long gone
Your more than just a woman burning with desire lying here so willing and so warm and im so close to heaven it sets my soul on fire remebering how you trembled in my arms
