

from Home Again
.....

Say good-bye to your twenties
Tomorrow is the "Big 3-0"
For my birthday present
I've got a place where we can go
It's a lesson in motion
To ride the wildest ride
We're gonna climb to the top of the roller coaster
And look down the other side

So let me ride in the front car
And you ride right behind
And I'll click my snapshot camera
At exactly the right time
Shoot back over my shoulder
Catch the fear no one can hide
When we tip the top of the roller coaster
And look down the other side
Over the hill

So when the prints come back
We can look at that unmistakable birthday fear
Like your younger days are over now
And its all down hill from here

It was a happy birthday
You surprised us all
So take a look at this glossy picture
I framed it for your wall
It's the moment of truth
It's the top of your youth
The camera don't lie
You might be screaming
But there's a meaning
In the laughter in your eyes
It seems to be saying
"Of coarse there will be fear"
But this is why we stand in line
Spend that time
Make that climb
To finally feel the other side
And it's all down hill from here

We're gonna climb to the top of the roller coaster
And look down the other side
