Title: Treasure Untold

download from: <http://www.lyricsdisc.com>

Dreaming of you and your eyes of blue I've loved you forever it seems
I've longed for you dear wanted you near you are the girl of my dreams
Although I have met you just now I'll tell you of my love somehow
If I could but win your heart little girl then I would have treasures untold
The kisses you gave me in life's sweetest dreams are even more precious than gold
I love your sweet face and your dear smiling eyes how often this story's been told
If I could but win your heart little girl then I would have treasures untold
[piano - dobro]
If I could but win...
