

oooh Baby  
oooh Babe...

(Verse 1)  
Everything you said to me tell me was i bugging, dreaming  
Cuz it's not that real to me  
there has been no sleeping,  
iv'e been thinking of how I...

(Bridge)  
Begged to love me  
(now you) want to leave me  
(and it) hurts me deeply inside  
(ooh baby how i..) want to touch you  
(and i) need to hold you  
(baby) stay with me one more night (one more night)

(Chorus)  
Turn around, and take just one more look  
See if your really sure,  
that you can walk away  
From my love,  
i'm begging you to stay  
Down on my knees to pray  
That you will turn around and be my baby

(Verse 2)  
All the moments that we shared  
You could never put a price on us  
I tried to trust in you  
After all of this iv'e deered  
You say that you are leaving  
Have you been thinking (of how I...)

(Bridge)

(Chorus)

(Verse 3)  
Just when i give in, your leaving  
Don't walk away from my love  
Can't go a day without your love  
Your all i'm dreaming of  
Just try again, beleive me  
This is where love begins  
Don't wanna here you say  
That you wanna walk away

(Chorus)X3
