

[Trash Talk]

Right now!
Ha, ha, ha, ha, ha, ha.

[Verse 1]

I am a scientist.
I am a physicist.
I know what I want, and I know how to get it,
I want to unlock the universe.

[Chorus]

Yes, I want a unified field theory.
It's the only one for me.

[Verse 2]

A unified field theory,
it's coming some day wait and see.
A theory to combine electromagnetivity,
with the weak and strong forces and gravity.

[Chorus]

Yes, I want a unified field theory.
Not Newtonian gravity.

[Verse 3]

Einstein tried, but he couldn't see,
the random state of the galaxies.
But quantum theory will be key,
to a unified field theory.

[Chorus]

Yes, I want a unified field theory.
Not relativity.

[Verse 4]

Right now the best bet seems to be,
the work being done in M-Theory.
Time will tell but I guarantee,
they ain't gonna find it at MIT.

[Chorus]

The institute won't beat me.
Ain't gonna happen G.

[Outro]

Cause, I want a unified field theory.
Yes, I want a unified field theory.
You know what I mean?
Yes, I want a unified field theory.
And a Nobel prize for me.

O yeah!
Uhh!
