

Don't - give up - got caught - in their trip
You were under 18 so they got the law
Put the handcuffs on you
Because you're young - you're easy bait
For a society - That's filled with hate
We were close - now you're gone
Where the fuck will they put you
Who do they think they are
To plan your life for you

I tried my best - to show you how
Got to survive in the street
I know your heart, you won't give in
To any of their fucking games
NO
Took away all your freedom
Labeled you down - locked you up
Because you're young - you're easy bait
For a society - that's filled with hate

They want your mind - they want your soul
Hold on tight - don't let go
They want your mind - they want your soul
You must throw - the final blow
Hold on tight - don't let go
You must throw - the final blow

You're back - you made it
You'll never give in
