Title: Until we meet again

download from: <http://www.lyricsdisc.com>

I'll be here, I'll be
I'll be, I'll be
I'll be here, I'll be
I'll be, I'll be
I'll be here

I never thought that I could carry on this way
Missing you every second, wanting you each day

When you come around
you know you drive me wild
I never want the day to end
But when you go away
it's just another day
I can't way
