---

Unyielding Conditioning  
Tune out from all that's happening  
Nobody deserves empathy  
Nobody feels for me

We've all been trained by our worlds

I cannot see no one but me  
No one can feel my emptiness  
Everybody must fend for themselves  
There is no openness

We've all been claimed by our worlds (X2)

But I have heard of ways  
That say there's light beyond the darkness  
And everyone can keep their children warm  
And togetherness will guide us safely  
Through all Storms

Unyielding Conditioning  
Remove all trace of memory  
No one needs justice anymore  
No voices raised in anger

We've all been tamed by our worlds (X2)

But I have heard of ways  
Where people topple all injustice  
No one lives their lives on bended knees  
And all bigotry is like a disease  
Drowned in the sea  
And all can hold their head up high !
