Title: Useless

download from: <http://www.lyricsdisc.com>

It doesn't really matter
But I am not the man she needs
Well I wish she'd just say it
I won't break and could use the peace
It's so confusing
Waiting here all alone
Could drop a dime
But I'm useless on the phone

Pull my boots on
Gonna walk right out the door
I made my mind up
And I can't stand it anymore
Overloaded, underfed'
A too small portion of her bed
Such a lover but not what I recommend

Well I still want her
But something's got to change
There is nothing here
That cannot be replaced
I tried and tried
Wanting to believe
That her special smile
Was something more than free

But what I want now is
Useless to me
What I want it is useless to me
