Title: Venus Again

download from: <http://www.lyricsdisc.com>

When you gonna leave me alone
Wake up and get on with your life
When you gonna pick up the phone
Can't you see I'm lonely tonight
Stranded out on Venus again
Waiting for the TV to speak
Where are all my beautiful friends
Toasting off my beautiful week

Would you throw me a rope if I asked you to dance
Swallow me whole if I gave you the chance, oh yeah
Somewhere in space there's a start and an end
Show me the way
