

Instead of just lying there
why don't you show me that you're powerful ?
I, I put in triple x batteries
just so you'd give me something wonderful turn you on

Change you up fast and slow
till I find the frequency I like

Chorus:
Plug it in give me my vibe on
Give me vibrations
That's what gets my ride on
gotta have vibrations
Jump on top it, sit right on it
Plug in give me my vibe on
gotta have vibrations

(Vibe)

I don't wanna put you down
Looks like I'm a viberaholic now
I, I need you coming with me everywhere
Lately I smile so much I'm getting stares

Change you up fast and slow
till I find the frequency I like

Chorus x2

(Rap)
You be like giving me vibrations
The ultimate stimulation straight out of the box
Ugh, no hesitation
Your speakers like a pony that I love to ride
Making me crazy when the volumns high
You're compact so I can take you anywhere I want
Make my friends scream out loud
I want what she's got
Supernatural doing things that normal man can't do
So let me take you out, try you out, I'm in the mood

Change you up fast and slow
Till I find the frequency I like

Chorus

Keep on giving me, keep on giving me my vibrations x4
Plug it in give me my vibe on
Give me vibrations
