---

Wake me up somehow  
Wake me up when you`re around  
Wake me up a thousand times  
Wake me up somehow

Coucher, Coucher  
I will lay me down  
I will call you back and then  
We`ll talk again  
In my dreams I dwell  
Asleep - there is no au revoir  
I do believe I hear you say  
"je veux te voir ce soir"

Eyes - dim and colorless  
Whispering to spoil the noise  
Meaningless to hear the voice -  
What splendid night it was

Wake me up somehow  
Wake me up when you`re around  
Wake me up a thousand times  
Wake me up somehow  
Wake me up today  
Wake me up and please, please stay  
Wake me up be pleased and stay  
Wake me up somehow

Comme ci, comme ca  
I`d shiver everywhere  
The quivering seems to linger there  
Il pleut dans mon coeur

I feel so insincere  
My memories of you are weird  
The beauty of your tongue -  
My work`s undone

Another chapter starts  
I close my eyes and watch the stars  
Overwhelming past -  
What splendid night it was

Wake me up somehow  
Wake me up when you`re around  
Wake me up a thousand times  
Wake me up somehow  
Wake me up today  
Wake me up and please, please stay  
Wake me up be pleased and stay  
Wake me up somehow
