WHAT!

(electric guitar starts)

uh uh

ah-huh

Verse 1:

Give it to me now

Well, why do I keep pulling out the roots in my hair?  
I'm picking at my face, it's obvious theres nothing there  
What do keep at the edge of my skin?  
It feels so good to have a taste of what I'm crawling in.  
I got to go, I got to leave  
The waves are changed today I'm pulling me  
even though I go with hip-hop, today, it's taking to your next game

Chorus:

Wake up, wake up

Wake up, wake up

Cuz I'll be leaving you today now

Shake up, shake up, don't breakup breakup

Take your lips off mine\*

Who could see these words are swinging?

Wake Up, Wake up, Wake up, Wake up,

Verse 2:

What did you keep comming out 2 sides of your mouth?  
You didn't think I had hit my people on how your selling out  
What did you think making your decision I'm dumb  
Manipulative, Calculative, and a pet, you thought  
I didn't know I couldn't see,  
The spade and plain plan for using me\*  
like the picture you counterfiet it's time to say good-night,  
it's not a reason to say Good-bye, good-bye, Buhbye

Chorus

(Guitar)

The Cofee is brewing now...  
As for me pouring out  
Eyes open now I see,  
All that you take from me!

(Guitar)

Chorus

(fades out)
