

Words and music: J. Stacy

I've seen you looking at me
I know you're asking all about me
You're the one to keep your cool
I kinda like the way you play it down, but...
Let me tell you something
You warm little mother...

I want to get just a little more action
You don't run from me
You don't need no hesitation
I'll let you in on a little revelation
You got yourself a situation here
Now come on over here

Well...let me tell you something
You warm little mother...

I been looking out for you
I know, I know, I know exactly what you're up to
You don't need to play your game with me
Don't wanna wait around for your strategy
You don't look for a treasure you have found
Why do you hunt when you've been hunted down...

I need to get just a little more action
You're no fun for me
You're a flame with a slow ignition
I'm giving you my full permission
To cook in my kitchen
Now dance for me

Yeah, yeah, yeah, like that baby
Yeah, yeah, yeah, just like that baby
I like it just like that, I like it just like that...
