

So you say there's nothing wrong  
Then tell me why I don't believe you  
Maybe you sound just to sincere  
Maybe I just saw right trough you

Cause who's the girl  
Walking there by your side  
The way she smiles I just know

I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love

So here the walls come tumbling down  
A heart's breaking into a thousand pieces  
I might be damaged but I'll be Ok  
Everything happens for a reason

Who's the girl  
Walking there by your side  
The way she smiles I just know

I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love

Everything happens for a reason

Who's the girl  
Walking there by your side  
The way she smiles I just know

(I can tell by the way you smile, yeah)  
I wasted love  
I wasted love  
I wasted all my emotions on you  
I wasted love
