Title: Water

I've been waiting all my life, to fly so high.
Unbelievable, now the sun is shining in my life.
Every day I want you more, be with me and sure.
Anything they say, anything they throw away.
Stronger now than yesterday.

Feel like I could walk across the water.
Heavenly there's not a cloud up in the sky.
And I know for you will never be another.
So the rain could fall but I would still be dry.

Lalala...

I am basking in the light so wonderful.
I wanna celebrate, everything that brought me here today.
As the ocean hits the shore forever more.
I am by your side, never cross the borderlight.
Love you till the end of time.

Feel like I could walk across the water.
Heavenly there's not a cloud up in the sky.
And I know for you will never be another.
So the rain could fall but I would still be dry.

And baby.
When I think of you my heart is open.
And I do believe that things will never change.
Even though more words of loving may not be spoken.
I look in your eyes and know you feel the same.

I wanna stay here forever,
your love is making me better.
I wanna stay here forever
and love you.
I wanna stick here forever,
your love is making me better.

I wanna stay here with you,
Wanna love you everyday.
Oh yeah.
I wanna stay here with you,
Wanna love you everyday.
Oh yeah.
